## Cheese of the Month — Etorki

Etorki comes from French Basque region and is produced in Mauléon. The cheese's character comes from the manechs (ewes from French Pays Basque, with a black head). In the Etorki, each loaf is formed by hand, rubbed and packed. Etorki has a yellow/orange like rind and is really smooth and pleasant on the palate. It is a mild, aromatic cheese that melts in your mouth, a sliced cheese with a creamy ewe's milk flavor. **\$22lb on Sale this month for \$19.80 lb**
